Ms. Cifrodella stated that this Tractor Supply store is long overdue for a facelift. A majority of their updating will be done within the existing store with the exception of an addition of a greenhouse on the outside of the store. Ms. Cifrodella went on to say that the greenhouse would be a permanent structure and would be approximately 5000sqft. In addition to the greenhouse, the applicant would like to add a little drive up shed for online orders and curbside pickup. The Planning Board was not sure that they were fond of the traffic pattern that the applicants presented and would like a feasible alternative.

After some more discussion the Planning Board went over the Short Form SEQR and had no concerns.

Mr. Kaleta said that the application request was a simple one. Mr. Stedman would like to build a 40 x 60 accessory pole barn for storage behind his already existing building. A lot of Mr. Stedman's business is seasonal based and during his busy season, he could use some more space for storage. Mr. Stedman has plenty of space to work with and due to it being less than 4000 sq ft, no variance or zoning will be needed.

CEO/ Building Inspector Mike Kaleta said that all necessary paperwork has been filed as well as the Village of Springville's Department Input sheet has been returned with no input or requirements from those Departments.

Last on the agenda is Application # 3388, a Public Hearing continuation from last month, Colby Rehrauer for property located at 144 N. Central Ave., a two family house. Towards the back of the property is a large garage that Mr. Rehrauer would like to put in an apartment in upstairs. Mr. Rehrauer would like to make it two bedrooms and with removing some floor space due to roof pitch, would be approximately 650 square feet. Last month the Planning Board wasn't sure that the 650 square feet would be enough to be acceptable for two bedrooms. This month the applicant has brought back actual numbers and the square feet would be approximately 1022 square feet per floor. That number was a lot more acceptable to the Planning Board.

Last month, after much discussion regarding the applicant's request and how the Planning Board wanted to proceed with the applicants request and maintain compliance, it was decided that the detached garage would be considered an existing structure for occupancy. Once the Planning Board decided that this application will fit within District, they tabled the application so that Mr. Rehrauer can come back to meet the requirements for Special Exception uses as listed in §200-78.

Mr. Rehrauer was not present for the hearing but has been in communication with Mr. Kaleta throughout the application process.
